

Membership of the CE Marking Association

Protect your business by staying informed

By becoming a member of the CE Marking Association you can protect your business by being aware of changes in product legislation that may affect the ongoing conformity of your products or machinery, and having access to support from our technical team.

Over the last few years many significant changes have occurred in almost all of the CE Marking Directives. These changes to the Directives have had a considerable impact on manufacturers, distributors, or importers in the EU. If your company is considering becoming a member, this will enable you to be kept up-to-date with the changes as they happen, in addition to the many other benefits we offer.

Annual Cost of Membership:

The cost is based on a 12 month period and is dependent upon the number of employees. Prices are exclusive of VAT. *Terms & Conditions apply.
